## CERTIFICATE OF ANALYSIS

**PRODUCT NAME:**

ECQUAS815CT

**CHEMICAL:**

SSDVB (Styrene Divinylbenzene)

**SILICA TYPE:**

Polymeric bead 20-60 micron

**LOT NUMBER:**

051655-BF

| <u>Test</u>                             | <u>Method</u> | <u>Specification Values</u> |            | <u>Lot Analysis</u>   |
|---|---------------|-----------------------------|------------|-----------------------|
|   |               | <u>Min</u>                  | <u>Max</u> |                       |
| <b>SSDVB</b>                            |               |                             |            |                       |
| Appearance                              | Visual        | Off-White Powder            |            | Off-White Powder      |
| Average Pore Size                       | SOP82-4.042   | Report Only                 |            | 100Å                  |
| Surface Area (m <sup>2</sup> /g)        | SOP82-4.042   | Report Only                 |            | 176 m <sup>2</sup> /g |
| ● Total sorbent weight per tube (300mg) |               | 285                         | 315        | Conforms              |

- All components of this product are individually weighed. The mass of each raw material meets method required tolerances.

*The shelf life is only valid if the material is stored in the original unopened container.*

*The specifications and lot analysis are only valid using the listed methods.*

*The test methods and specifications were current when the product was lotted.*
