## **CERTIFICATE OF ANALYSIS**

**PRODUCT NAME:** ECQUAS715CT

CHEMICAL: Mixture of CUPSA,SSDVB(Styrene Divinylbenzene)
SILICA TYPE: Irregular particles 40-63 micron, 60 Angstroms
LOT NUMBER: 079536-HG

|   |             | Specification Values |            | <b>Lot Analysis</b>          |
|---|-------------|----------------------|------------|------------------------------|
| <u>Test</u>                                 | Method      | <u>Min</u><br>55Å    | <u>Max</u> |                              |
| Average Pore Size                           | SOP82-4.042 | 55Å                  | 65Å        | 60Å                          |
| Surface Area (m <sup>2</sup> /g)            | SOP82-4.042 | 470                  | 530        | $503 \text{ m}^2/\text{g}$   |
| Pore Volume (cm <sup>3</sup> /g)            | SOP82-4.042 | 0.70                 | 0.85       | $0.70 \text{ cm}^3/\text{g}$ |
| Appearance                                  | Visual      | White Fine Powder    |            | White Fine Powder            |
| CUPSA (lot#320260-HG)                       |             |                      |            |                              |
| Carbon Analysis by Weight (Organic Loading) | SOP82-4.024 | 10.50%               | 12.50%     | 11.10%                       |
| Anion Exchange                              | SOP82-4.028 | 1.00                 | 1.50       | 1.024meq/g                   |
| • Total sorbent weight per tube (300mg)     |             | 285                  | 315        | Conforms                     |
| <b>SSDVB</b> (lot#223160-BL)                |             |                      |            |                              |
| Average Pore Size                           | SOP82-4.042 | Report Only          |            | 100Å                         |
| Surface Area (m <sup>2</sup> /g)            | SOP82-4.042 | Report Only          |            | $178 \text{ m}^2/\text{g}$   |
| • Total sorbent weight per tube (200mg)     |             | 190                  | 210        | Conforms                     |

All components of this product are individually weighed. The mass of each raw material meets method
required tolerances.

The shelf life is only valid if the material is stored in the original unopened container. The specifications and lot analysis are only valid using the listed methods. The test methods and specifications were current when the product was lotted.
